Participants of previous GE Healthcare CTA Forum discussions

Forum #1 Participants: Published in the December 2003 Applied Radiology Supplement

A brief overview of CT angiography
  Elliot K. Fishman, MD, Professor of Radiology and Oncology and the Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD

Technical aspects of contrast delivery in advanced CT
  Kyongtae T. Bae, MD, PhD, Assistant Professor of Radiology, Mallinckrodt Institute of Radiology, Washington University School of Medicine, St. Louis, MO

Contrast enhancement in the evaluation of thoracic disease
  David P. Naidich, MD, Professor of Radiology, New York University School of Medicine, New York, NY

Contrast techniques for hepatic multidetector CT angiography
  Sanjay Saini, MD, Director of Computed Tomography, Massachusetts General Hospital and Professor of Radiology, Harvard Medical School, Boston, MA

CT angiography in neuroimaging
  S. James Zinreich, MD, Professor of Radiology, Division of Neuroradiology, Johns Hopkins Medical Institutions, Baltimore, MD

CT angiography: Optimizing contrast use in pediatric patients
  Marilyn J. Siegel, MD, Professor ofRadiology and Pediatrics, Mallinckrodt Institute of Radiology, Washington University School of Medicine, St. Louis, MO

The use of contrast media in cardiac CT
  Christoph R. Becker, MD, Associate Professor and CT Section Chief, University of Munich, Grosshadern, Germany

CTA of the abdominal aorta and extremity circulation
  W. Dennis Foley, MD, Director of the Section of Digital Imaging, Medical College of Wisconsin, Milwaukee, WI

Forum #2 Participants: Published in the July 2004 Applied Radiology Online Supplement

CT angiography: The state of the art in 2004
  Elliot K. Fishman, MD, Professor of Radiology and Oncology, and Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD

Use of contrast in CTA and CTV of the kidneys
  Brian R. Herts, MD, Head of the Section of Abdominal Imaging, Division of Radiology, Cleveland Clinic Foundation, Cleveland, OH

CT angiography establishes leading role in pulmonary imaging
  U. Joseph Schoepf, MD, Director of CT Research and Development, and Associate Professor of Radiology, Department of Radiology, Medical University of South Carolina, Charleston, SC

Coronary CT angiography
  Leo P. Lawler, MD, FRCP, Assistant Professor, Department of Radiology, Johns Hopkins Hospital, Baltimore, MD

The role of CT angiography in aortic stent-grafting
  W. Dennis Foley, MD, Professor of Radiology, Medical College of Wisconsin, Milwaukee, WI

CT angiography of the lower extremities
  Geoffrey D. Rubin, MD, Associate Professor of Radiology and Section Chief of Cardiovascular Imaging, Stanford University School of Medicine, Palo Alto, CA

Evaluation of hepatic masses by multidetector CTA
  Elliot K. Fishman, MD, Professor of Radiology and Oncology, and Director of Diagnostic Radiology and Body CT, Johns Hopkins Medical Institutions, Baltimore, MD
Contrast Use in Cardiac CTA Applications

Forum #3 Participants: Published in the December 2004 Applied Radiology Supplement

CT angiography: A snapshot in time
Elliot K. Fishman, MD, Professor of Radiology and Oncology, Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD

CT: The key to the evaluation and management of hepatic malignancy
Michael P. Federle, MD, Professor of Radiology and Chief of the Abdominal Imaging Division, University of Pittsburgh Medical Center, Pittsburgh, PA

CTA solidifies role in the evaluation of pancreatic disease
Alec J. Megibow, MD, MPH, FACR, Professor of Radiology and Vice Chair for Education, New York University School of Medicine, New York, NY

CT evaluation and staging of renal masses
Julia R. Fielding, MD, Associate Professor of Radiology and Chief of Abdominal Imaging, University of North Carolina, Chapel Hill, NC

CTA of the abdominal aorta guides stent-grafting
Jay P. Heiken, MD, Professor of Radiology and Director of Abdominal Imaging, Mallinckrodt Institute of Radiology, Washington University School of Medicine, St. Louis, MO

CT examination of mesenteric vessels and small bowel
Karen M. Horton, MD, Associate Professor of Radiology, Johns Hopkins Hospital, Baltimore, MD

Tailoring contrast administration for cardiac CT
Christoph R. Becker, MD, Associate Professor of Radiology and Section Chief, Body CT, University of Munich, Grosshadern, Germany

A practical approach to contrast delivery for peripheral CTA
Dominik Fleischmann, MD, Assistant Professor of Radiology, Stanford University School of Medicine, Stanford, CA

Forum #4 Participants: Published in the August 2005 Applied Radiology Online Supplement

Contrast-induced nephropathy: Risk factors, pathophysiology, and prevention
Stanley Goldfarb, MD, Professor of Medicine and Associate Dean for Clinical Education, University of Pennsylvania School of Medicine, Philadelphia, PA

An overview of 64-slice CT technology
Elliot K. Fishman, MD, Professor of Radiology and Oncology and the Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD

Whole-body CT screening
Karen M. Horton, MD, Associate Professor of Radiology, Johns Hopkins Hospital, Baltimore, MD

CTA of cystic renal masses
Julia R. Fielding, MD, Associate Professor of Radiology and Chief of Abdominal Imaging, University of North Carolina, Chapel Hill, NC

Techniques for lower-extremity CT angiography
Geoffrey D. Rubin, MD, Associate Professor of Radiology, Stanford University School of Medicine, Stanford, CA

CT reshapes coronary and pulmonary angiography
Ella A. Kazerooni, MD, Professor of Radiology and Director of Thoracic Radiology, University of Michigan Medical Center, Ann Arbor, MI
**Forum #5 Participants:** Published in the December 2005 *Applied Radiology* Supplement

*Introduction to 64-slice CT and its role in coronary imaging*

*Elliot K. Fishman, MD, Professor of Radiology and Oncology, Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD*

*Coronary artery calcified plaque for cardiovascular disease risk assessment*

*J. Jeffrey Carr, MD, MSCE, Vice Chair for Clinical Research and Associate Professor, Divisions of Radiological Sciences and Public Health Sciences, Wake Forest University, Winston-Salem, NC*

*Coronary CT angiography: A cardiologist’s perspective*

*Stephan Achenbach, MD, Staff Cardiologist and Assistant Professor of Medicine, University of Erlangen–Nürnberg, Erlangen, Germany*

*How to do coronary CT angiography: A radiologist’s perspective*

*Jill E. Jacobs, MD, Associate Professor of Radiology and Chief of Cardiac Imaging in the Department of Radiology, New York University Medical Center, New York, NY*

*Cardiac CT: Beyond the coronary arteries*

*Richard D. White, MD, Clinical Director, Center for Integrated Non-Invasive Cardiovascular Imaging, Cleveland Clinic Foundation, Cleveland, OH*

*CT of the pulmonary veins and left atrium*

*Michael Poon, MD, Director of Cardiovascular Medicine and the Integrated Imaging Program, Cabrini Medical Center, and an Associate Professor of Medicine (Cardiology), Mount Sinai School of Medicine, New York, NY*

*CT evaluation of congenital heart disease in adults*

*Marilyn J. Siegel, MD, Professor of Radiology and Pediatrics, Mallinckrodt Institute of Radiology, Washington University School of Medicine, St. Louis, MO*

**Forum #6 Participants:** Published in the September 2006 *Applied Radiology* Online Supplement

*Three-dimensional rendering techniques: When, where, and why*

*Elliot K. Fishman, MD, Professor of Radiology and Oncology and Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD*

*Triple rule-out CTA assesses pulmonary, cardiac, and aortic vasculature*

*Ella A. Kazerooni, MD, MS, Professor of Radiology and Director of Thoracic Radiology, University of Michigan Medical Center, Ann Arbor, MI*

*CT angiography of the extremity arterial system*

*Geoffrey D. Rubin, MD, Professor of Radiology and Section Chief of Cardiovascular Imaging, Stanford University School of Medicine, Palo Alto, CA*

*CTA of the mesenteric vessels*

*Karen M. Horton, MD, Associate Professor of Radiology, Johns Hopkins Hospital, Baltimore, MD*

*CT angiography in trauma*

*Stuart E. Mirvis, MD, FACR, Professor of Diagnostic Radiology, Associate Vice Chairman for Medical Affairs, and Director, Emergency and Trauma Radiology, University of Maryland Medical Center, Baltimore, MD*

*Contrast-induced nephrotoxicity*

*Elliot K. Fishman, MD, Professor of Radiology and Oncology and Director of Diagnostic Radiology and Body CT, Johns Hopkins Hospital, Baltimore, MD*

*Neurological applications of CTA*

*Stuart R. Pomerantz, MD, Associate Director of Neuro-CT, the Division of Neuroradiology, Massachusetts General Hospital, Boston, MA*
